Barracuda **Backup**
Backup and Recovery Made Simple and Affordable

Barracuda Backup reduces complexity, cost, and time by integrating **software, storage, and cloud technology in an all-in-one solution.**

☐ Security
☑ **Storage**
☐ Application Delivery

The Barracuda Advantage

- All-in-one backup solution requires no third-party software, hardware, or cloud
- Cloud-based central management
- Intuitive and simple web interface
- No per-server or per-application fees
- Affordable per-GB or unlimited* flat-rate cloud storage
- Complimentary hardware refresh with Instant Replacement subscription

* Unlimited cloud storage—the industry's first flat-rate subscription for complete backup and retention in the cloud from a single backup appliance.

Product Spotlight

- **Protects physical and virtual (VMware & Hyper-V) environments**
- **LiveBoot™ for VMware**
- **User file access via Copy™ (www.copy.com)**
- Deduplicated storage and fast replication
- Microsoft SQL, Exchange, and message-level restore
- VMware snapshot and file recovery
- Cloud storage and site-to-site replication
- Extended cloud backup retention

Integrated, All-in-One Backup Solution

A complete backup solution no longer requires multiple vendors. Barracuda Backup combines software, up to 50x storage-saving deduplication, and offsite cloud or private replication—all without per-server or per-application licensing fees.
Physical and Virtual Environments

Most businesses today have a mixed environment of physical and virtual servers. Barracuda Backup is a single solution to protect physical servers, Hyper-V, and VMware with snapshot and granular file recovery—all with unified policy management for replication, scheduling, and retention.

A Cloud with Benefits

Take the cloud far beyond storage. With unlimited cloud storage plans, central management, Cloud LiveBoot, and on-demand user access to files via Copy (www.copy.com), Barracuda Backup offers more than any backup solution has before.

Barracuda Backup gives you the freedom to replicate box-to-box, box-to-cloud, or both.

Local Office

Barracuda Backup Server

Barracuda Cloud Storage

Barracuda Backup has taken a complex and vital function of our business and streamlined it. It has given us peace of mind that we have a robust disaster recovery plan in place for all situations.

IT Director
High Sierra Sport Company

Key Features

Data Backup Features

- Full local backup and restore
- Data deduplication
- Cloud replication with mirrored storage
- Site-to-site replication
- 256-bit AES encryption to/ at offsite locations
- Offsite selection
- Open file backup support
- Centralized management
- Near-continuous data protection
- Automated backup scheduling
- Data transfer rate limits
- VMware and Hyper-V CBT

Data Recovery

- Bare metal restore for Windows Server 2008/2012, SBS 2008/2011, and Windows Vista/7/8
- File download from web interface
- Directory download to zip file from web interface
- File/Application restore
- LiveBoot for VMware
- VMDK browsing and granular file recovery
- 24x7 Barracuda Technical Support assistance
- Exchange message-level
- VMware CBT restores

Reporting & Statistics

- Server health monitoring
- Network traffic utilization
- Storage utilization
- File revision history
- Detailed offsite backup reports
- Detailed restoration reports
- Administrator/user activity
- Automated email reports
- Large file reports

Administration & Policy Management

- Centralized web interface
- Role-based administration
- Flexible data retention
- Backup exclusion rules
- Display groups

Backup Software Included

- Windows Agent for:
  – Microsoft Windows File System
  – Microsoft Exchange
  – Microsoft SQL Server
  – Microsoft Hyper-V
  – Microsoft Windows system state including Windows registry, Active Directory, etc.
- Linux Agent

Network Backups Included

- NAS/SAN
- Unix/Linux/Mac OS X

Granular SharePoint Recovery with Kroll Ontrack

- Granular file recovery
- File search
- Restore to multiple locations

Support Options

Barracuda Energize Updates

- 24x7 technical support
- Remote firmware updates
- Automatic agent upgrades
- No per-user fees or per- application fees, including unlimited new software agents

Instant Replacement Service

- Hardware refresh every four years
- Replacement unit shipped next business day
- Cloud LiveBoot for VMware
- In the event of a disaster, replacement unit pre-loaded with data from the cloud.

Hardware Features

Connectors

- Standard VGA
- PS/2 keyboard
- Ethernet (see chart below)
- SFP/SFP+ (see chart below)
- USB

Copy (www.copy.com)

- Restore/Share to Copy
- File sharing and storage
- Access from any device
- Copy for Companies
  – User and group management
  – Control proprietary data
  – Secure employee termination
